submissions:

20 July 2025

Message from the Guest Editor

Dear Colleagues,

This Special Issue, titled "Advances in Spinal Tumoral Pathology: Surgical Perspectives and Multidisciplinary Therapeutic Approaches", aims to delve into the latest developments in surgical approaches to managing spinal tumors.

Articles cover a range of topics, including minimally invasive procedures, image-guided surgery, spinal stabilization methods, and advancements in tumor resection. Additionally, this Special Issue aims to examine emerging trends such as personalized treatment plans based on genetic profiling or the integration of adjuvant therapies to improve patient outcomes. Through comprehensive reviews, case studies, and clinical insights, this Special Issue offers valuable perspectives for clinicians, researchers, and healthcare professionals involved in the multidisciplinary care of patients with spinal tumors, providing a vital resource for staying abreast of the latest advancements in this complex and evolving field.

Ultimately, this Special Issue underscores the paramount importance of patient quality of life as a primary outcome goal, reflecting a comprehensive approach to surgical interventions for spinal tumors.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Oncology) / CiteScore - Q1 (Oncology)
