Pakistan

Deadline for manuscript
submissions:

30 September 2024

Message from the Guest Editors

Dear Colleagues,

We invite your contributions to the Special Issue on "Advancements in Treatment Approaches for AML." This issue focuses on advancements in diagnosis, prognosis, and treatment strategies for acute myeloid leukemia (AML).

We seek original research articles and reviews exploring novel diagnostic and treatment strategies across various settings. Collaborating with experts, we aim to ensure the success of this endeavor.

Potential research areas include molecular pathogenesis, diagnostic algorithms, clinical trials of innovative therapies, novel therapeutic targets and immunotherapy, guideline recommendations, and strategies in allogeneic hematopoietic stem cell transplantation.

All articles will undergo rigorous peer review to ensure scientific quality and relevance. Contributions from researchers, clinicians, and oncology experts are encouraged.

Your submissions will contribute to the collective understanding and progress in AML treatment. For questions or assistance, please reach out to us. We are here to support your participation. Thank you for your attention, and we look forward to your valuable contributions.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Oncology) / CiteScore - Q1 (Oncology)
