Deadline for manuscript
submissions:

closed (31 March 2024)

Message from the Guest Editor

We lack renal cell carcinoma (RCC) biomarkers to help inform critical clinical decisions. RCC biomarkers hold significant potential for early diagnosis, risk stratification, and treatment selection. This Special Issue on Biomarkers in RCC explores the current state of RCC biomarkers, discussing diagnostic, prognostic, and predictive biomarkers, while highlighting their advantages and limitations. We examine emerging technologies for biomarker discovery and challenges that must be addressed before clinical implementation. By delving into future perspectives, this Special Issue emphasizes the importance of a rigorous methodology, validation, and collaboration to advance the field of RCC biomarkers.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Oncology) / CiteScore - Q1 (Oncology)
