Deadline for manuscript submissions:
31 December 2024

Message from the Guest Editors

Dear Colleagues,

Tumors of the central nervous system include a wide range of different neoplasms with significantly diverging treatment protocols and prognosis. Some of them are part of more complex syndromes, which require proper diagnostic examinations and follow-up regimens. In recent years, new diagnostic tools and targeted therapies have emerged, along with the awareness of specific molecular characteristics with significant therapeutic and prognostic value.

In this Special Issue, original research articles and reviews are welcome, along with expert opinions, systematic reviews, and meta-analyses. Research areas may include (but are not limited to) the following: gliomas, meningiomas, ependymomas, metastases, hemangioblastomas, schwannomas, neurocutaneous syndromes, intraoperative neuromonitoring, diagnostic tools, new therapeutical strategies, prognostic factors, supportive care, and rehabilitation.

We look forward to receiving your contributions.

Dr. Alberto Feletti

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.
Journal Rank: JCR - Q1 (Oncology) / CiteScore - Q1 (Oncology)
