#### Prof. Dr. Takashi Suzuki

Department of Anatomic Pathology, Tohoku University Graduate School of Medicine, 2-1 Seiryo-machi, Aoba-ku, Sendai 980-8575, Miyagi-ken, Japan

Deadline for manuscript submissions:

31 March 2025

## **Message from the Guest Editors**

Dear Colleagues,

It is well known that hormones contribute immensely not only to normal tissue/cell functions but also to the development of various disorders. Tumors arising from endocrine organs and neuroendocrine neoplasms produce active hormones and cause various clinical symptoms. Endocrine-related cancers such as breast and prostate cancers are common malignant neoplasms worldwide, and hormones are locally produced and act in cancer tissues. In recent years, new techniques have been developed to visualize hormonal dynamics, and new light is being shed on the diagnosis of endocrine-related tumors. Moreover, a detailed investigation of hormonal actions will lead to the development of a new therapeutic strategy for endocrine-related tumors. This Special Issue will be reviewed by experts in this field and encompass new research articles and timely reviews regarding hormones and tumors

## **Editor-in-Chief**

#### Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

# **Message from the Editor-in-Chief**

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

### **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Oncology) / CiteScore - Q1 (Oncology)
