Deadline for manuscript submissions:

closed (30 August 2023)

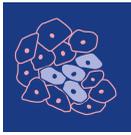

Message from the Guest Editor

Dear Colleagues,

As Guest Editor, I am pleased to introduce this *Cancers* (IF: 6.575) Special Issue entitled “*Novelty in Endocrine Cancer—Technology, Techniques, and Therapy*”.

The past decade has seen much innovation in the field of endocrinology, with novel surgical approaches, technologies, medications, and understanding changing the way we practice. We invite authors to contribute primary works and reviews relevant to the field of endocrinology, including discussions of topics such as the thyroid gland, the parathyroid glands, the adrenal gland, and melanomas. We particularly welcome work discussing imaging studies (e.g., ultrasound, CT, MRI, and PET/CT), novel approaches (e.g., minimally invasive techniques and remote-access approaches), and putative genetic markers of disease.

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Oncology) / CiteScore - Q1 (Oncology)
