Message from the Guest Editor

Dear Colleagues,

Breast cancer is the leading oncological diagnosis in women worldwide, accounting for more than 287,000 cases in 2022. Oncoplastic breast surgery has gained popularity across the world. Newer localisation techniques for clinically non-palpable cancers have significantly helped surgeons to use theatre time more efficiently with a better patient experience. Likewise, the availability of better implants and acellular dermal matrices and other meshes has been instrumental in widening the reconstructive options available to our patients. The future of breast surgery is exciting with ongoing innovations in various fields such as resection margin assessment methods and with the wider application of artificial intelligence in various aspects of breast cancer management.

The present Special Issue will provide an overview of the latest evidence in the field of breast cancer surgery focusing on BCS, oncoplastic surgery, prosthetic breast reconstruction, and reconstructive strategies. Therefore, we welcome the submission of review articles and original research papers.

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
