Deadline for manuscript
submissions:

closed (5 August 2024)

Message from the Guest Editor

Dear Colleagues,

From a research perspective, I conducted fundamental research on apoptosis and other related issues. I have focused on minimally invasive surgery, including robotic surgery, for benign and malignant diseases of the esophagus and stomach. In addition, I have clinical interests in chemotherapy as well as surgery and nutritional assessments aimed to improve the quality of life and prognoses of patients. In clinical research, I clarified prognostic factors for cancer and developed new prognostic markers.

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Oncology) / CiteScore - Q1 (Oncology)
