The Epidemiological Studies of Gynecological Cancers

Guest Editors:

Dr. Nithya Ratnavelu

Northern Gynaecological Oncology Centre, Queen Elizabeth Hospital, Gateshead NE9 6SX, UK

Dr. Ioannis Biliatis

Department of Gynecological Oncology, Poole Hospital NHS Foundation Trust, Poole BH15 2JB. UK

Deadline for manuscript submissions:

20 June 2025

Message from the Guest Editors

Dear Colleagues,

There are significant geographical variations in the incidence of gynecological cancers worldwide. Patient outcomes depend on understanding tumor biology, prevention and screening, timely interventions and appropriate treatment. Additionally, epidemiological studies can help policy makers direct precious resources and shape healthcare systems.

We would therefore like to invite authors to contribute to this Special Issue, which focuses on new developments, such as the incidence and prevalence of women's cancers, lifestyle factors, investigative pathways, genetic testing, new staging systems, quality of life, adjunctive treatment algorithms and the impact of low resources on patient survival.

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Oncology) / CiteScore - Q1 (Oncology)
