Message from the Guest Editor

Dear Colleagues,

The International Association for Hospice & Palliative Care define Palliative care as “the active holistic care of individuals across all ages with serious health-related suffering due to severe illness, and especially of those near the end of life”. It includes “prevention, early identification, comprehensive assessment and management of physical issues, including pain and other distressing symptoms, psychological distress, spiritual distress and social needs”.

This Special Issue aims to provide an evidence-based review of common palliative care problems in patients with advanced cancer, to highlight new research and new developments in the area, and to discuss the evolving role of palliative care in supportive care and oncology (in both developing and developed countries).

We are seeking original papers relating to new interventions within palliative care for patients with cancer, involving (but not exclusively) pain and symptom control, new models of care, and the use of digital health interventions.

Prof. Dr. Andrew Neil Davies

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Oncology) / CiteScore - Q1 (Oncology)
