Deadline for manuscript  
submissions:

**closed (31 January 2024)**

### Message from the Guest Editor

The Multinational Association of Supportive Care in Cancer defines supportive care as “the prevention and management of the adverse effects of cancer and its treatment. This includes management of physical and psychological symptoms and side effects across the continuum of the cancer journey from diagnosis through treatment to post-treatment care. Supportive care aims to improve the quality of rehabilitation, secondary cancer prevention, survivorship, and end-of-life care”.

The aim of this Special Issue is to provide an evidence-based review of common supportive care problems in patients with cancer, to highlight new research and new developments in the area, and to discuss the evolving role of supportive care and oncology (in both developing and developed countries).

We are seeking original papers that are related to new interventions within supportive care for patients with cancer, involving (but not exclusively) the management of problems associated with cancer, management of problems associated with cancer treatment, new models of care, and the use of digital health interventions.

an Open Access Journal by MDPI

## Editor-in-Chief

Oncology and Reproductive  
Medicine, The University of Texas  
MD Anderson Cancer Center,  
Houston, TX 77030, USA

## Message from the Editor-in-Chief

*Cancers* (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
