### Message from the Guest Editors

Hepatocellular carcinoma (HCC) has faced many challenges in recent decades regarding epidemiology, diagnosis, and treatment options. Both the incidence and mortality rates of hepatocellular carcinoma (HCC) have risen dramatically since 1997, meaning that they are now secondary to nonalcoholic steatohepatitis in Western countries.

This Special Issue of *Cancers* is dedicated to CEUS in HCC, aiming to encourage discussions regarding all the challenges faced by clinicians and the presentation of research on how to manage all the stages of HCC, from diagnosis to treatment and surveillance. We also encourage the submission of papers regarding differential diagnosis with other tumors developed both on cirrhotic and noncirrhotic liver (MAFLD), focusing on imaging aspects and vascular patterns.

Deadline for manuscript submissions:

**20 November 2024**

## Message from the Editor-in-Chief

*Cancers* is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Oncology) / CiteScore - Q1 (Oncology)
