Vaillant, 94805 Villejuif, France

Deadline for manuscript
submissions:

closed (30 June 2022)

Message from the Guest Editor

The thyroid gland can harbor one of the most indolent of human cancers, micropapillary carcinoma, but also give rise to one of the most aggressive and lethal of human cancers, anaplastic carcinoma, with a rainbow of cancers of varying histologies and prognoses in between. Advances have been made in recent years on both sides of the spectrum, from “less is more” active surveillance for small papillary carcinomas to personalized molecular-based targeted therapies for metastatic disease and anaplastic carcinoma. With improved knowledge of molecular pathways, redifferentiation to induce radioactive iodine uptake in refractory tumors is also now a reality. New surgical and minimally invasive techniques are now applied both for primary surgery and for effectively treating oligometastatic disease. This Special Issue on “Advances in the Management of Thyroid Cancer” will cover recent progress in treatment of the lowest risk to the highest risk cancers and provide insight for future therapies and clinical trials.

Houston, TX 77030, USA

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Oncology) / CiteScore - Q1 (Oncology)
