Message from the Guest Editor

Dear Colleagues,

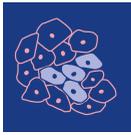

This special issue of *Cancers* discusses the many facets and different perspectives of the recent advances and research progress in hepatocellular Carcinoma. This is timely considering the several improvements in managing this disease starting with curative therapies, local ones, and novel systemic treatments.

Cancers (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.
