submissions:

closed (20 May 2022)

Message from the Guest Editors

The proposed Special Issue aims to address all the aspects of epigenetics applied to the identification of new biomarkers and the discovery of new drugs for the treatment of both solid and hematological cancers, with reference to the exploitation of new knowledge acquired for development of new targeted personalized therapies.

Keywords:

- cancer
- epigenetics
- biomarker
- drug discovery
- targeted therapy
- chromatin
- gene function

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Oncology) / CiteScore - Q1 (Oncology)
