Deadline for manuscript
submissions:

closed (15 April 2013)

Message from the Guest Editor

Dear Colleagues,

This special issue on Genomic Instability and Cancer is dedicated to our understanding of the processes of genomic instability in cancer, to the initiation of genomic instability and the dynamics of its propagation. Focus will be mechanisms of genomic instability in cancer taking into account diverse approaches and models in the field.

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Oncology*) / CiteScore - Q1 (*Oncology*)
