Deadline for manuscript  
submissions:

**closed (31 December 2023)**

### Message from the Guest Editor

Dear Colleagues,

We are pleased to invite you to submit articles focused on molecular, pharmacologic, hormonal, immunologic, microbiologic, genetic and epigenetic mechanisms, and modulators alone and/or in combination with lifestyle or metabolic-bariatric surgical interventions to disrupt the obesity cancer linkage. In this Special Issue, original research articles and reviews are welcome.

This Special Issue of *Cancers* aims to more precisely define obesity cancer linkages; more specifically identify the mechanisms by which obesity-associated cancer-promoting processes actually mediate their effects; and to focus on identifying strategies, agents, and interventions which alone and/or in combination will disrupt the obesity cancer linkage.

I look forward to receiving your contributions.

Prof. Dr. Nathan Berger

## Message from the Editor-in-Chief

*Cancers* is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Oncology) / CiteScore - Q1 (Oncology)
