Special Issue

Advances in the Surgical Treatment of Spinal Tumors

Message from the Guest Editor

Spinal tumors pose significant challenges due to their complex nature and profound impact on patient quality of life as well as survival. This Special Issue focuses on advancing the management of spinal tumors through innovative surgical techniques, cutting-edge radiation therapies, and the integration of artificial intelligence for personalized treatment planning. Topics of interest include minimally invasive and reconstructive spine surgery, novel radiation modalities, the management of spinal metastases, and histology-specific approaches. Contributions addressing multidisciplinary care and quality-of-life outcomes are also encouraged. Original research, databases, or multi-institutional cohorts, in addition to reviews, are welcome, aiming to provide clinically relevant insights that drive advancements in spinal tumor treatment and patient care.

About the Journal

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok.

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
