

# Special Issue

## Cancers Driven by HIF

### Message from the Guest Editor

In this Special Issue of *Cancers*, we would like to bring to light the role of HIF in cancer metabolism. In addition, the clinical relevance of HIF in terms of cancer treatment can be addressed with new therapies that will be beneficial to fight against different types of cancers.

## About the Journal

### Message from the Editor-in-Chief

*Cancers* (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.
