

Special Issue

Radiotherapy for the Management of Brain Metastases

Message from the Guest Editor

Advancements in imaging and systemic options have recently led to groundbreaking changes in the treatment of brain metastases. In this issue, “Radiotherapy for the Management of Brain Metastases”, we present modern approaches to patients with brain metastases, the significance of their molecular profiles, systemic treatment options, and radiotherapeutic techniques. We will discuss sequencing or systemic options and radiotherapeutic options, such as primary irradiation and re-irradiation. Senior scholars will discuss state-of-the-art treatment approaches and cutting-edge clinical research.

Guest Editor

Dr. Alla Gabriella Wernicke

Department of Radiation Medicine, Lenox Hill Hospital, New York, NY, USA

About the Journal

Message from the Editor-in-Chief

Cancers (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Editor-in-Chief

Prof. Dr. Samuel C. Mok

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
