Message from the Guest Editors

Dear Colleagues,

This Special Issue aims to collect high-quality articles in the field of catalysis, for which the Editorial Board members of the journal *Catalysts*, Section “Catalysis in Organic and Polymer Chemistry”, and other researchers working in the field are cordially invited to contribute.

Original articles dealing with homogeneous, heterogeneous and enzymatic catalysis directed to organic and polymer synthesis, green and sustainable chemistry, and the mechanistic understanding of catalytic transformations (employing both theoretical and experimental tools) are welcome.
