

Selected Papers from the 5th Edition of Global Conference on Catalysis, Chemical Engineering and Technology (CAT 2019)

Guest Editors:

Prof. Dr. Stanislaw Dzwigaj

Laboratoire de Réactivité de Surface, Sorbonne Université-CNRS, UMR 7197 Campus Pierre et Marie Curie, 4, Place Jussieu, 75252 Paris, France

Prof. Dr. Arthur Nozik

Department of Chemistry and Biochemistry, University of Colorado, Boulder, CO 80309, USA

Deadline for manuscript submissions:
closed (31 January 2020)

Message from the Guest Editors

The present Special Issue will feature the works presented at **CAT 2019** that promote the linkage of catalytic science, engineering, and technology. Authors with expertise in any topic of catalysis are cordially invited to submit their manuscripts to this Special Issue of *Catalysts*. Significant full papers and review articles are very welcome. The topics will cover various aspects of heterogeneous and homogeneous catalysis, as well as other areas on boundaries such as electrochemistry, photochemistry, energy, fuels, environmental protection, green and sustainable chemistry, fine chemistry, biotransformation, surface chemistry, nanotechnology, and microbial technology in both experimental and theoretical research.

Note: CAT 2019 participants will receive a benefit of 25% waiver on article processing charges.
