Advances in Organocatalysis Applied for Organic Synthesis: Celebrating the Nobel Prize in 2021

Guest Editors:

Prof. Dr. Janusz Jurczak

Institute of Organic Chemistry,
Polish Academy of Sciences, 01-
224 Warsaw, Poland

Dr. Piotr Kwiatkowski

Faculty of Chemistry, University
of Warsaw, Warsaw, Poland

Dr. Patryk Niedbała

Institute of Organic Chemistry of
the Polish Academy of Sciences,
Warsaw, Poland

Deadline for manuscript
submissions:

closed (31 October 2022)

Message from the Guest Editors

Dear Colleagues,

We would like to present this Special Issue of **Catalysts** dedicated to Nobel Laureates of 2021—Benjamin List and David MacMillan. The field of organocatalysis is currently one of the most important branches of modern organic synthesis. We hope that many colleagues will be highly interested in collaborating and present their research in our Special Issue.

Prof. Dr. Janusz Jurczak

Dr. Piotr Kwiatkowski

Dr. Patryk Niedbała
