New Trends in Phillips and Other Catalysts for Ethylene Polymerization

Guest Editors:

Dr. Alessandro Piovano

Department of Chemistry, INSTM
and NIS Centre, University of
Torino, Via Giuria 7, 10125 Torino,
Italy

Dr. Giorgia Zanchin

CNR-SCITEC Institute "Giulio
Natta", via Corti 12, 20133 Milano,
Italy

Prof. Dr. Silvia Bordiga

Department of Chemistry, INSTM
and NIS Centre, University of
Torino, Via Giuria 7, 10125 Torino,
Italy

Deadline for manuscript
submissions:

closed (31 December 2021)

Message from the Guest Editors

The goal of this Special Issue is to put together different contributions on the Phillips catalyst and on the catalysis of ethylene polymerization in general, spacing from the development of the process to the characterization of the catalysts (where appropriate, investigations on homogeneous catalytic systems will also be included).

We hope that the Special Issue will be the chance to outline new trends on this topic and to foster the network between different research groups.

We cordially invite you to submit a manuscript for consideration and possible publication. We hope this topic is of interest and look forward to hearing from you.
