

## Special Issue

# Catalysts for Biofuel and Bioenergy Production

### Message from the Guest Editors

Dear colleagues, With environmental protection and rapidly increasing global energy demands, bioenergy has attracted considerable and increasing attention as a green alternative to conventional fuels. Biodiesel, biolubricant, bioethanol, biofuel, and other bioenergy products are normally produced from biomass. To enhance reaction efficiency, simplify the production process, or facilitate an ecofriendly method, great efforts have been made to develop various processes, including chemical, enzyme, autocatalyzed, and supercritical methods, for producing those products. Consequently, the development of new catalysts for bioenergy production continues to be an important issue in bioenergy research. This Special Issue aims to cover scientific works dealing with the use of catalysts (homogeneous and heterogeneous acid/alkali/enzyme catalysts) for the production of biodiesel, biolubricant, biofuel, bioethanol, biogas, hydrogen, and other bioenergy types. In addition, this Special Issue is not limited to the use of the autocatalyzed process and the supercritical method for fuel and energy production.

### Guest Editors

Dr. Hwai Chyuan Ong  
Prof. Dr. Chia-Hung Su  
Dr. Hoang Chinh Nguyen

### Deadline for manuscript submissions

closed (31 August 2022)

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Keith Hohn  
Carl R. Ice College of Engineering, Kansas State University, Manhattan,  
KS, USA

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, CAB Abstracts, and other databases.

##### Journal Rank:

JCR - Q2 (Chemistry, Physical) / CiteScore - Q1 (General Environmental Science )

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.9 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2025).
