Advances in Melanoma Immunotherapy

Guest Editor:

Dr. Jeffrey D. McBride

College of Medicine, University of Oklahoma Health Sciences Center, Oklahoma City, OK, USA

Deadline for manuscript submissions:

15 December 2024

Message from the Guest Editor

Dear Colleagues,

The field of melanoma treatment is witnessing revolutionary advancements, particularly in the field of immunotherapy. This special issue aims to encapsulate these groundbreaking changes by gathering cutting-edge research focused on the mechanisms, efficacy, and future directions of immunotherapies and other new therapies against metastatic melanoma. We invite contributions that explore novel therapeutic targets and immune response modulation. Our goal is to provide a comprehensive overview that will inform and inspire ongoing and future efforts in combating melanoma through immunological approaches.

Dr. Jeffrey D. McBride Guest Editor

Editors-in-Chief

Prof. Dr. Alexander E. Kalyuzhny

Neuroscience, UMN Twin Cities, 6-145 Jackson Hall, 321 Church St SE, Minneapolis, MN 55455, USA

Prof. Dr. Cord Brakebusch

Biotech Research & Innovation Centre, The University of Copenhagen, Copenhagen, Denmark

Message from the Editorial Board

Cells has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. Cells encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Cell Biology*) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)
