## 10th Anniversary of Cells—Advances in Autophagy

Guest Editors:

### **Prof. Dr. Christian Münz**

Viral Immunobiology, Institute of  
Experimental Immunology,  
University of Zürich,  
Winterthurerstrasse 190, CH-8057  
Zürich, Switzerland

### **Dr. Mireille Verdier**

EA 3842 CAPTuR, GEIST Institute,  
University of Limoges, CEDEX,  
87025 Limoges, France

Deadline for manuscript  
submissions:

**closed (15 October 2021)**

### **Message from the Guest Editors**

2021 marks the 10th anniversary of the publication of *Cells*. We are delighted and proud to celebrate with a series of Special Issues and events. To date, the journal has published more than 4000 papers, and the journal website attracts more than 50,000 monthly page views. We would like to express our sincerest thanks to our readers, innumerable authors, anonymous peer reviewers, editors, and all the people working in some way for the journal who have made substantial contributions over the years. Without your support, we would never have made it.

To mark this important milestone, a Special Issue entitled “10th Anniversary of Cells—Advances in Autophagy” is being launched. This Special Issue will collect research articles and high-quality review papers in the autophagy research fields. We kindly encourage all research groups working in autophagy areas to make contributions to this Special Issue.

## Editors-in-Chief

**Prof. Dr. Alexander E. Kalyuzhny**

Neuroscience, UMN Twin Cities,  
6-145 Jackson Hall, 321 Church St  
SE, Minneapolis, MN 55455, USA

**Prof. Dr. Cord Brakebusch**

Biotech Research & Innovation  
Centre, The University of  
Copenhagen, Copenhagen,  
Denmark

## Message from the Editorial Board

*Cells* has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [CAPus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Cell Biology*) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)
