## Cell Biology: State-of-the-Art and Perspectives in France

Guest Editor:

### **Prof. Dr. Christiane Branlant**

Christiane Branlant DRE CNRS,  
IMoPA CNRS-UL Laboratory  
UMR7365, Biopôle, Campus  
Brabois-Santé, Avenue de la  
Forêt de Haye, 54500 Vandoeuvre  
les Nancy, France

Deadline for manuscript  
submissions:

**closed (30 June 2021)**

### **Message from the Guest Editor**

This Special Issue aims to provide a comprehensive overview of the state of the art of cell biology in France. We invite research papers that will consolidate our understanding in this area. The Special Issue will publish full research articles and comprehensive reviews. Potential topics include but are not limited to the following research areas:

OMICS: transcriptomics, genomics, proteomics, metabolomics, glycomics, lipidomics, interactomics, fluxomics, and biomics; Cell structure: organelles, cytoskeleton, cell membrane, capsule, flagella, etc.; Cell physiology: cell growth, metabolism, protein synthesis, division, movement of proteins, active/passive transport, intra- and extracellular signaling, adhesion, DNA repair, etc.; Redox biology; Reactive oxygen species homeostasis and antioxidants; Cell movement and motility; Autophagy; Apoptosis; Cell aging; Cell techniques: cell and tissue culture, isolation and fractionation of cells, immunocytochemistry (ICC), in situ hybridization (ISH), transfection, and optogenetics; Cell growth and differentiation; Hematopoiesis and stem cells; Cancer stem cells; Genetic disorders; CAR-T cell research

## Editors-in-Chief

### **Prof. Dr. Alexander E. Kalyuzhny**

Neuroscience, UMN Twin Cities,  
6-145 Jackson Hall, 321 Church St  
SE, Minneapolis, MN 55455, USA

### **Prof. Dr. Cord Brakebusch**

Biotech Research & Innovation  
Centre, The University of  
Copenhagen, Copenhagen,  
Denmark

## Message from the Editorial Board

*Cells* has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [CAPus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Cell Biology*) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)
