Deadline for manuscript
submissions:

closed (31 January 2024)

Message from the Guest Editor

Dear Colleagues,

Under the section “Cell Motility and Adhesion”, we aim to set up a Special Issue to publish high-quality review papers related to cell motility and adhesion. The topics of interest include, but are not limited to, the following:

- Cytoskeleton;
- Membrane trafficking;
- Cellular dynamics;
- Cell adhesion and cell junctions;
- Cell division;
- Cell migration;
- Biotechnologies related to cell motility and adhesion;
- Other topics fitting the section scope.

This Special Issue is intended to contribute to the compilation of the current knowledge on cell motility and adhesion, and to make it available to a broad readership. Distinguished researchers from all over the world, working in all related fields, are therefore invited to contribute to this review series. All papers will be published on an ongoing basis with full open access. We are looking forward to receiving your interesting contributions.

an Open Access Journal by MDPI

Editors-in-Chief

Dr. Alexander E. Kalyuzhny

Dental Basic Sciences, University of Minnesota, 308 Harvard St. SE, Minneapolis, MN 55455, USA

Prof. Dr. Cord Brakebusch

Biotech Research & Innovation Centre, The University of Copenhagen, Copenhagen, Denmark

Message from the Editorial Board

Cells has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Cell Biology) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)
