Regulation of Photosynthesis in Time of Global Warming

Guest Editors:

Prof. Dr. Stanislaw Karpinski

Institute of Biology, Department of Plant Genetics, Breeding and Biotechnology, Warsaw University of Life Sciences, Nowoursynowska 159, 02-767 Warszawa, Poland

Dr. Maciej Bernacki

Institute of Biology, Department of Plant Genetics, Breeding and Biotechnology, Warsaw University of Life Sciences, Nowoursynowska 159, 02-776 Warsaw, Poland

Dr. Anna Rusaczonek

Department of Botany, Institute of Biology, Warsaw University of Life Sciences - SGGW, 159 Nowoursynowska Str., building 37, room 2/88B, 02787 Warsaw, Poland

Message from the Guest Editors

We kindly encourage you to publish articles in a Cells special issue organized by us. The issue focus on:

- cross-tolerance to stresses
- photosynthesis and photoinhibition
- photosystem II energy quenching and dissipation
- retroactive signals
- reactive oxygen species and hormones
- biomass and yield production
- water use efficiency

SE, Minneapolis, MN 55455, USA

Prof. Dr. Cord Brakebusch

Biotech Research & Innovation
Centre, The University of
Copenhagen, Copenhagen,
Denmark

Message from the Editorial Board

Cells has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [CAPus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Cell Biology*) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)
