## Cell Biology: State-of-the-Art and Perspectives in Canada 2022

Guest Editors:

### **Prof. Dr. János G. Filep**

Maisonneuve-Rosemont  
Hospital, Department of  
Pathology and Cell Biology,  
University of Montreal, Montreal,  
QC H1T 2M4, Canada

### **Dr. Ian Rogers**

1. Department of Obstetrics &  
Gynecology, and Department of  
Physiology, University of Toronto,  
Toronto, ON M5S 1A8, Canada  
2. Lunenfeld Tanenbaum  
Research Institute, Mount Sinai  
Hospital, Toronto, ON M5G 1X5,  
Canada

Deadline for manuscript  
submissions:

**closed (30 November 2022)**

### **Message from the Guest Editors**

This Special Issue aims to provide a comprehensive overview of the state of the art of cell biology in Canada. We invite research papers that will consolidate our understanding in this area. The Special Issue will publish full research articles and comprehensive reviews. Potential topics include but are not limited to the following research areas:

- OMICS: transcriptomics, genomics, proteomics, metabolomics, glycomics, lipidomics, interactomics, fluxomics, and biomics;
- Cell structure: organelles, cytoskeleton, cell membrane, capsule, flagella, etc.;
- Cell physiology: cell growth, metabolism, protein synthesis, division, movement of proteins, active/passive transport, intra- and extracellular signaling, adhesion, DNA repair, etc.;
- Cell movement and motility;
- Autophagy;
- Apoptosis;
- PANoptosis;
- Cell aging;
- Cell techniques: cell and tissue culture, isolation, and fractionation of cells, immunocytochemistry (ICC), in situ hybridization (ISH), transfection, and optogenetics;
- Cell growth and differentiation;
- Hematopoiesis and stem cells;
- Cancer stem cells;
- Genetic disorders;
- CAR-T cell research

## Editors-in-Chief

### **Prof. Dr. Alexander E. Kalyuzhny**

Neuroscience, UMN Twin Cities,  
6-145 Jackson Hall, 321 Church St  
SE, Minneapolis, MN 55455, USA

### **Prof. Dr. Cord Brakebusch**

Biotech Research & Innovation  
Centre, The University of  
Copenhagen, Copenhagen,  
Denmark

## Message from the Editorial Board

*Cells* has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Cell Biology*) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)
