## Human Cancer Modeling in Zebrafish to Improve Our Understanding and Treatment

Guest Editor:

**Prof. Bogustawa Ewa Snaar-Jagalska**

Gorlaeus Laboratories, Institute of Biology, Leiden University, Einsteinweg 55, 2333 CC Leiden, The Netherlands

Deadline for manuscript submissions:

**closed (15 February 2023)**

### Message from the Guest Editor

Dear Colleagues,

In this Special Issue of *Cells*, we invite your contributions, either in the form of original research articles, reviews, or shorter perspective articles on all aspects related to the theme of “Human Cancer Modeling in Zebrafish to Improve Our Understanding and Treatment”. Articles with molecular biological insight and translational perspective to clinic are especially welcome.

Relevant topics include but are not limited to:

- Zebrafish as a model organism in cancer research;
- Genetically induced cancer models;
- Allo-, xeno-, ortotopic transplantation models;
- Zebrafish avatars of human cancer;
- Tumor microenvironment interactions;
- Drug discovery and toxicity;
- Compound administration and compound pharmacokinetics;
- Cancer prevention.

### Keywords

- Zebrafish cancer models
- ZF-avatars
- Drug discovery
- Drug administration
- Cancer prevention

Centre, The University of  
Copenhagen, Copenhagen,  
Denmark

## Message from the Editorial Board

*Cells* has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Cell Biology*) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)
