Micro- and Macro-Environmental Factors in Solid Cancers

Guest Editor:

Dr. Elda Tagliabue

Head of Molecular Targeting Unit,
Department of Research,
AmadeoLab, Fondazione IRCCS
Istituto Nazionale dei Tumori, Via
Amadeo 42, 20133 Milan, Italy

Deadline for manuscript
submissions:

closed (15 February 2023)

Message from the Guest Editor

Dear Colleagues,

In the Special Issue of *Cells*, we invite your contributions, either in the form of original research articles, reviews, or shorter perspective articles on all aspects related to the theme of "Micro- and macro-environmental factors in solid cancers".

Relevant topics include, but are not limited to

- Cancer-associated fibroblasts: their characteristics, function and interplay with tumors
- Cancer-associated adipocytes: their characteristics, function and interplay with tumors
- Interaction of the extracellular matrix, stoma and tumor cells
- Tumor angiogenesis
- Tumor-infiltrating immune cells: their characteristics, function and interplay with tumors
- Tumor metabolism
- Bi-directional interplay between tumor and host (e.g. obesity, BMI, lifestyle cachexia)
- Commensal bacteria and tumor

Keywords: stromal cells; immune cells; angiogenesis; metabolism; commensal bacteria; obesity; BMI; lifestyle; cachexia

of Minnesota, 308 Harvard St. SE,
Minneapolis, MN 55455, USA

Prof. Dr. Cord Brakebusch

Biotech Research & Innovation
Centre, The University of
Copenhagen, Copenhagen,
Denmark

Message from the Editorial Board

Cells has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [CAPus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Cell Biology) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)
