## Photocatalysis in Circular Economy

Guest Editors:

### Prof. Dr. Gianguido Ramis

Dipartimento di Ingegneria  
Chimica, Civile ed Ambientale,  
Università degli Studi di Genova  
and INSTM Unit Genova, Via  
all'Opera Pia 15A, 16145 Genova,  
Italy

### Prof. Dr. Barbara Bonelli

Department of Applied Science  
and Technology and PolITO  
BiomED Interdepartmental Lab,  
Politecnico di Torino, INSTM Unit  
of Torino—Politecnico, 10129  
Torino, Italy

### Dr. Antonio Tripodi

Chemical Plants and Industrial  
Chemistry Group, Dip. Chimica,  
Università degli Studi di Milano,  
CNR-ISTM and INSTM Unit  
Milano-Università, via C. Golgi 19,  
20133 Milan, Italy

### Message from the Guest Editors

Dear Colleague,

The theme of this issue is “Photocatalysis in a Circular Economy”. With this topic, we aspire to attract innovative and interdisciplinary contributions from pure and applied chemistry, with a particular focus on sustainable development. The scale-up from the intrinsic photoactivity of semiconductor materials to a photoreactor able to transform scraps to energy and/or chemicals using solar energy combines innovative chemistry and technology. Examples of the areas in which papers would be especially welcome are: Development of photoactive materials, water splitting, CO<sub>2</sub> capture and photoreduction, photoreforming of biomasses, and photoreactors design.

Dr. Gianguido Ramis  
Prof. Dr. Barbara Bonelli  
Dr. Antonio Tripodi  
*Guest Editors*

Deadline for manuscript  
submissions:

**closed (30 June 2022)**

## Editor-in-Chief

### Prof. Dr. Igor Alabugin

Department of Chemistry and  
Biochemistry, Florida State  
University, Tallahassee, FL 32306,  
USA

## Message from the Editor-in-Chief

Chemistry is a broad science and in *Chemistry* we hope to showcase the excellence of this fundamental discipline. Open Access publishing allows scientists to publish their research in a way that reaches the widest possible audience. In *Chemistry* we aspire to build a genuinely transdisciplinary culture in which communication of results between scientists active in different areas and between scientists and the broader public highlights the benefits that chemistry can bring to society. We encourage papers on all aspects of chemistry ranging from astrochemistry to zoochemistry, with everything in between. We also very strongly welcome inter- and multidisciplinary papers which expand the subject beyond its present horizons. We also welcome themed issues collecting reviews and state-of-the-art papers in topical areas of chemical science.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [CAPlus / SciFinder](#), and [other databases](#).

**Reliable service:** rigorous peer review and professional production.
