Message from the Guest Editor

Dear Colleagues,

I am delighted to organize a Special Issue in the journal *Chemosensors* on the topic “Application of Laser-Induced Breakdown Spectroscopy”. The main purpose of this SI is to report the recent progress made in the application of LIBS in different fields to provide a clearer picture on how this technology should be developed in the future and to show how powerful it is to people who are interested in elementary chemical analysis.

Any interesting applications with unique facility design, quantification methods, understanding improvement, and successful demonstration are welcome.

Prof. Dr. Zhe Wang
Guest Editor

an Open Access Journal by MDPI

Editors-in-Chief

Prof. Dr. Jin-Ming Lin

Beijing Key Laboratory of
Microanalytical Methods and
Instrumentation, Department of
Chemistry, Tsinghua University,

France

Message from the Editorial Board

Chemosensors continues to grow as a forum for all manners of sensing that encompass chemistry. *Chemosensors* is published in open access format – all articles and content are released on the internet immediately following acceptance, thus allowing unlimited access to the content as soon as it is published. We would be happy to have you join our growing list of authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [CAPlus / SciFinder](#), [Inspec](#), [Engineering Village](#) and [other databases](#).

Journal Rank: JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Physical and Theoretical Chemistry)
