

Special Issue

Feature Papers in the Section "Analytical Methods, Instrumentation and Miniaturization"

Message from the Guest Editors

This Special Issue covers all areas in analytical methods, instrumentation, and miniaturization related to the development of high-performance chemical sensors.

We invite you to contribute an original research article, review article, or perspective article on a trending or hot topic for peer review and possible publication. All papers in this Special Issue will be collected into a well-promoted printed edition book. Topics of interest include, but are not limited to:

- Chemical analytical methods and instrumentation;
- Bioanalytical methods and instrumentation;
- Optical methods and instrumentation for chemical sensors and biosensors;
- Surface and interface analysis;
- Analytical methods and instrumentation for nanotechnology;
- Miniaturized sensors and systems;
- Flexible sensors and systems;
- Nanosensors;
- Methodologies to enhance the performance of sensors.

Guest Editors

Prof. Dr. ZhongYang (Z.-Y.) Cheng

Materials Research and Education Center, Auburn University, Auburn, AL 36849-5341, USA

Dr. Wen Shen

Mechanical and Aerospace Engineering, University of Central Florida, Orlando, FL, USA

Deadline for manuscript submissions

1 June 2025

About the Journal

Message from the Editorial Board

Chemosensors continues to grow as a forum for all manners of sensing that encompass chemistry. *Chemosensors* is published in open access format – all articles and content are released on the internet immediately following acceptance, thus allowing unlimited access to the content as soon as it is published. We would be happy to have you join our growing list of authors.

Editors-in-Chief

Prof. Dr. Jin-Ming Lin

Department of Chemistry, Beijing Key Laboratory of Microanalytical Methods and Instrumentation, Tsinghua University, Beijing 100084, China

Prof. Dr. Nicole Jaffrezic-Renault

Institute of UTINAM, UMR-CNRS 6213, University of Franche-Comté, 16 Gray Road, 25030 Besançon, France

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Engineering Village and other databases.

Journal Rank:

JCR - Q1 (Instruments and Instrumentation) / CiteScore - Q2 (Analytical Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.1 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2024).
