Paolo e Carlo-San Paolo  
University Hospital, 20142 Milan,  
Italy

Deadline for manuscript  
submissions:

**30 October 2024**

### Message from the Guest Editors

Dear Colleagues,

Obesity represents one of today's greatest public health challenges and has important implications in both the short and long term even in pediatric patients. Our aim here is to delve into the metabolic aspects of obesity in children and adolescents with a focus on alterations in lipid profiles, glucose metabolism, hepatic involvement (MAFLD), and all the clinical and biochemical features of so-called metabolic syndrome that we can now identify and treat in children.

In this Special Issue, we welcome original research articles, reviews, and short papers on metabolic syndrome and obesity in children related to diagnostic and treatment modalities related to lifestyle changes, dietary–nutritional interventions, and pharmacological treatments that could be used as early as adolescence.

## Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
