Message from the Guest Editors

Dear Colleagues,

The field of pediatric colorectal surgery is rapidly expanding. Minimally invasive techniques are employed for procedures that were historically not routine. Cloacal anomalies, for example, have been repaired with laparoscopic surgery in some institutions. Improvements in the care of infants born with complex malformations have now led to an increase in older children with colorectal needs that require unique approaches. The increasing incidence of early-onset inflammatory bowel disease in children requires the development of protocols for proper management. We invite you to submit article(s) that highlight these and other challenges within the field of pediatric colorectal surgery that will advance the discussion, and ultimately the care, of these complex patients.

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

Journal Rank: JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
