Message from the Guest Editors

It is a pleasure for us to invite you to cooperate on this Special Issue entitled “Changes in adolescents’ brains and behaviors: implications for mental health”.

This Special Issue focuses on adolescents’ mental health and aims to deepen both biological and environmental factors predisposing the emergence of psychopathology during adolescence, with a specific attention on sleep as a mediating factor and on new therapeutic strategies.

Therefore, we invite colleagues to present original research, case reports and series and review papers on this essential research topic.

We are looking forward to your contributions.
