## Assessment and Treatment of Children and Adolescents with Functional Somatic Disorders

Guest Editor:

**Prof. Dr. Charlotte Ulrikka Rask**

Department of Child and Adolescent Psychiatry, Aarhus University Hospital, 8200 Aarhus, Denmark

Deadline for manuscript submissions:

**closed (20 September 2024)**

### Message from the Guest Editor

Dear Colleagues,

Functional somatic disorders are commonly encountered in paediatric medicine. These disorders are characterised by the presentation of somatic symptoms or illness worries that are disproportionate to the history, physical examinations, laboratory tests, and other investigative findings. The diagnostic process is often delayed with a risk of excessive and potentially harmful medical investigations. In addition, there is high psychiatric comorbidity.

Without proper treatment, functional somatic disorders place significant psychosocial, educational, and financial strains on children and their families, as well as a substantial burden on the healthcare system with high healthcare costs. Thus, there is an urgent need for the improvement of models for systematic assessment, diagnostic tools, and the development of specialised treatment across the spectrum of severity. This Special Issue offers a unique opportunity to contribute to a state-of-the-art series on functional somatic disorders in children and adolescents with special emphasis on studies presenting original research on assessment issues and/or new treatment programmes in this area.

## Editor-in-Chief

### **Prof. Dr. Paul R. Carney**

Departments of Child Health and Neurology, University of Missouri, 400 Keene Street, Columbia, MO 65211, USA

## Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
