submissions:

closed (30 April 2024)

Message from the Guest Editors

Dear Colleagues,

We are pleased to announce the launch of a Special Issue of the journal *Children* (a PubMed-indexed journal), titled ‘Developments in the Management of Cranial Injury in Children’. This Special Issue will publish research that promotes a novel understanding of the cause of cranial trauma in infants and young children, as well as studies on algorithm-based managements. Particular attention will be paid to reports discussing technological integrations into the treatment of these patients. Additionally, we will accept papers on radiographic diagnosis, triage, operative and nonoperative management, and long-term outcomes.

We request that you submit only unpublished works to this Special Issue.

Should you have any queries, do not hesitate to contact the Editorial Office.

We look forward to receiving your contributions.

Keywords

- skull fracture
- subdural hematoma
- epidural hematoma
- cerebral contusion
- concussion
- arterial dissection
- seizures
- functional outcomes
- emergency room triage

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

Journal Rank: JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
