Message from the Guest Editor

This Special Issue will focus on the diagnosis and treatment of obstructive sleep apnea in children in with underlying pulmonary conditions.

Obstructive sleep apnea (OSA) is a common sleep breathing disorder in children, affecting 2-5% of the general pediatric population. Untreated OSA is linked to adverse neurobehavioral and cardiovascular outcomes and is associated with poor quality of life in children. Several pulmonary conditions are considered risk factors for OSA, including asthma, BPD and restrictive lung disease related to neuromuscular weakness.

For this Special Issue, we are seeking research and review articles focusing on the prevalence, pathophysiology, disease interactions and management of OSA in these situations.

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

Journal Rank: JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
