Dr. Alissa Huth-Bocks

Departments of Pediatrics and Psychiatry, UH Rainbow Babies and Children's Hospital, Case Western Reserve University School of Medicine, Cleveland, OH 44106, USA

Deadline for manuscript submissions:

closed (1 May 2023)

Message from the Guest Editors

Dear Colleagues,

Exposure to adverse childhood experiences has been recognized as a public health crisis in the United States by leading organizations such as the American Academy of Pediatrics (AAP), the National Child Traumatic Stress Network (NCTSN), and the Substance Abuse and Mental Health Services Administration (SAMHSA). Early exposure to stress and trauma have both short- and long-term physical and mental health outcomes across the lifespan. Healthcare settings are increasingly recognized as key venues to identify, intervene, and ameliorate the impact of adverse childhood experiences and build resilience among at-risk youth and their families.

Considering the success and popularity of the Special Issue entitled “Adverse Childhood Experiences: Prevention, Intervention, and Access to Care”, previously published in the *Journal of Children* (https://www.mdpi.com/journal/children/special_issues/adverse_), we are now releasing a second issue with the aim to gather original research papers and review articles related to adverse childhood experiences.

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

Journal Rank: JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
