Research Hospitals, Bergamo,  
Italy

Deadline for manuscript  
submissions:  
**closed (20 August 2024)**

### Message from the Guest Editors

Dear Colleagues,

It is a pleasure to invite you to contribute to this Special Issue dedicated to respiratory diseases, in particular asthma and lung function in children.

The exponential increase in the prevalence of asthma and even severe asthma in children has prompted clinical activity and research focused on the study and monitoring of respiratory disease and function in children. The most recent challenge in this field is SARS-CoV2 infection and the monitoring of its possible long-term consequences in children.

Considering the success and popularity of the Special Issue "Lung Function, Respiratory and Asthma Disease in Children" previously published in the journal *Children* ([https://www.mdpi.com/journal/children/special\\_issues/lung\\_fun](https://www.mdpi.com/journal/children/special_issues/lung_fun)) we are releasing a follow-up Special Issue with the aim of gathering original research papers and review articles related to respiratory diseases, asthma and lung function in children. We also welcome articles that discuss important advancements and novel interventions in SARS-CoV2 infection and its influence on lung function in children.

## Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
