Message from the Guest Editors

Dear Colleagues,

Adolescence is a transition period from childhood to adulthood, which is generally characterized by good health. These special characteristics are often related to the emergence of certain health issues and high-risk behaviors. The purpose of this Special Issue is to help scientists to delve into issues of developmental and psychosocial health of children and adolescents and to evolve this knowledge into daily practice. We invite manuscripts dealing with the most common health-related issues observed in this specific age group, such as nutrition and eating disorders, overweight and obesity, internet high-risk behaviors, hate speech, mental health, substance abuse, sexual health topics, gynecological issues and contraception, andrology, skin conditions, learning disorders and ADHD, family counseling and support, infectious diseases, chronic illnesses, youth-friendly services, and transition services. Original research papers, systematic reviews, and meta-analyses are welcome.

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

Journal Rank: JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
