Deadline for manuscript  
submissions:  
**closed (15 August 2022)**

### **Message from the Guest Editor**

Dear Colleagues,

Art therapy is a form of psychotherapy that uses artistic media, the creative process, and artwork as its primary forms of communication. Art therapies cover six areas of specialization: visual arts, music, dance and movement, drama, psychodrama, and bibliotherapy. A number of studies and reviews have demonstrated its effectiveness for both adult populations (e.g., Regev and Cohen-Yatziv, 2018) and children as well as adolescents (e.g., Cohen-Yatziv and Regev, 2019). Academic writing and research, both of which have evolved extensively in recent decades, have highlighted the considerable significance of art therapies, especially for young people.

This Special Issue, “Art Therapies with Children and Adolescents”, is dedicated to presenting research and clinical writing on the implementation of art therapies in a variety of settings, including hospitals, the education system, and mental health clinics, as well as others. Original research, including reviews and in-depth case descriptions, will be considered for publication.

I look forward to receiving your contributions.

Sincerely,

[mdpi.com/si/108123](https://mdpi.com/si/108123)

**Special** Issue

## Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
