2. Institute of Health Policy, Management and Evaluation, University of Toronto, Toronto, M5T 3M6 ON, Canada

Deadline for manuscript submissions:
closed (31 March 2021)

Message from the Guest Editor

Assessing value in child health is increasingly important as health care systems face difficult choices with regard to what services and programs to offer. Researchers, practitioners and decision makers appreciate that value extends beyond assessments of efficacy and safety. This special issue invites submissions that pertain to *assessing value in child health*. Manuscripts that address the following are welcome:

- Health technology assessment in child health
- Pediatric cost-effectiveness and willingness-to-pay
- Measuring preferences (utility) of patients, family members or the public for pediatric health states
- Health-related quality of life and cost spillover effects in caregivers
- Valuation of preferences for pediatric interventions and technologies by patients, family members, clinicians and members of the public using quantitative or qualitative methods
- Ethical analysis for valuation of complex emerging technologies in child health
- The development of tools, instruments, statistical approaches or models to measure elements of value in child health
- Value frameworks for funding and policy decision making for pediatric interventions and services

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

Journal Rank: JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
