3. Department of Biomedicine and Prevention, University of Rome "Tor Vergata", Rome, Italy

Deadline for manuscript  
submissions:

**30 January 2025**

### Message from the Guest Editor

Dear Colleagues,

This Special Issue aims to collate the latest research and insights into the mechanisms, risk factors diagnosis, management, and prevention of allergic diseases in children. By focusing on cutting-edge studies, we seek to provide a platform for the dissemination of knowledge that can improve clinical practices and patient outcomes.

Recent advancements in the field have highlighted the role of early life nutrition, genetic, environmental, and immunological factors in the development and progression of allergic diseases in children. Studies have shown that early diagnosis and intervention are crucial for managing these conditions effectively.

We invite original research articles, comprehensive reviews, and clinical studies that explore the following:

- The epidemiology of pediatric allergies;
- Novel diagnostic methods and biomarkers;
- Innovative management and treatment strategies;
- Preventive measures and early intervention;
- Growth of children with allergy;
- Economic burden of allergic diseases;
- The psychosocial impact of allergies on children and their families.

## Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
