Deadline for manuscript
submissions:
closed (15 February 2022)

Message from the Guest Editors

Pediatric emergency medicine now encompasses not only direct care in the emergency department but also prehospital care, innovations in diagnostic testing, and radiology advances, as well as advancements in medical and trauma care. In addition, pediatric emergency medicine also incorporates quality improvement initiatives to improve the safety and quality of emergency care in all settings, including community emergency departments, academic medical centers, and children's hospitals and urgent care facilities. This Special Issue addresses a wide variety of topics that surround pediatric emergency medicine that have previously been rarely considered or have developed with new innovations or scientific advances. We recognize the tremendous growth and scope of pediatric emergency medicine which continuously encourages us to assess all evidence and experience so that we can continue to strive to provide the best care possible for the populations we treat.

children

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Paul R. Carney

Departments of Child Health and Neurology, University of Missouri, 400 Keene Street, Columbia, MI 65201, USA

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

Journal Rank: JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
