Deadline for manuscript submissions:
closed (1 February 2021)

Message from the Guest Editors

Recent years have seen an increased interest in dental caries and other oral diseases in children and adolescents, as good oral health at younger ages can prevent worse consequences in adulthood. Exploring and understanding the role of several individual or contextual risk factors of oral diseases is significant for the planning and implementation of preventative or therapeutic interventions aimed at improving oral health outcomes in children.

For this Special Issue, we invite authors to submit high-quality contributions related to the burden of oral diseases, their risk factors and the impact of these conditions on quality of life, as well as preventive and therapeutic approaches for their prevention and treatment in children. We welcome both original articles and systematic reviews. Moreover, with regard to rare congenital conditions, informative case series and case reports focusing on novel interventions are also very welcome. Papers reporting on the methodological aspects of research in this area will also be considered.

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

Journal Rank: JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
